TITLE	Selected Student Statistics, 1994-95.
INSTITUTION	Wisconsin Technical Coll. System Board, Madison.
PUB DATE	Jun 97
NOTE	71p.
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC03 Plus Postage.
DESCRIPTORS	Community Colleges; *Enrollment; *Enrollment Trends; Ethnic Groups; *Full Time Equivalency; School Districts; *Student Characteristics; Tables (Data); *Two Year College Students; Two Year Colleges
IDENTIFIERS	*Wisconsin Technical College System

ABSTRACT

Providing data on headcount enrollment for the Wisconsin Technical College System, this report contains tables of system-wide enrollments, district enrollments, and enrollments by selected student characteristics for 1994-95, as well as historical data from the past 10 years. Following a map of Wisconsin college districts, categories of aid code titles used are defined as college parallel; postsecondary, including associate degree and vocational students; and continuing education, including vocational-adult and community services education. The following tables, showing data by these categories, are then provided: (1) statewide enrollment, 1985-86 through 1994-95; (2) total enrollment by district for 1994-95; (3) full-time equivalent enrollment by district for 1994-95; (4) selected student characteristics, including age, gender, and highest grade completed for 1994-95; (5) selected student characteristics by district for 1994-95; (6) statewide target population enrollment (e.g., students with disabilities, academic or economic disadvantages, and with limited English proficiency) for 1985-86 through 1994-95; (7) target population enrollment by district for 1994-95; (8) statewide enrollment by race/ethnicity for 1985-86 through 1994-95; (9) district enrollment by race/ethnicity for 1994-95; (10) enrollment by county of residence for 1994-95; and (11) student transfers to system districts for 1991-92 through 1994-95. DISTRICTS

INTRODUCTION

This report contains information on headcount enrollment [with one table of Full-Time Equivalent (FTE) information] for the Wisconsin Technical College Districts. The information is as submitted by the districts unless otherwise noted.

Information is provided by district for program year 1994-95 along with tables containing state totals with ten years of selected data. Students are counted by programs and courses. Consequently, the numbers herein may differ from State Board publications which count students and FTE's solely by course; e.g., the annual Cost Allocation Summary report or the Facts report.

The Technical College Districts offer different types of courses depending upon the purpose for which they are offered and the target clientele they are designed for. The major distinction is between those courses which provide credit towards a degree or diploma for State Board approved programs, and those which do not such as basic or continuing education courses.

Enrollment is summarized by aid code titles (e.g., One-Year Vocational Diploma) under the following categories unless otherwise noted:

COLLEGE PARALLEL

College Parallel (Associate of Arts or Science Degree)

POSTSECONDARY

Associate Degree

Associate Degree (Associate of Applied Arts or Applied Science Degree)

Vocational

One- and Two-Year Vocational Diploma, Certificate, Apprenticeship and Occupational/General Education Courses

CONTINUING EDUCATION

Vocational-Adult

Continuing Occupational and General Adult Courses

Community Services

Adult Avocational

ENROLLMENT SUMMARY

This first set of tables provides state total headcount information for the years 1985-86 through 1994-95, and headcount and Full-Time Equivalent counts by Technical College district for 1994-95.

In the headcount tables, students are counted only once in any given column but are counted in each column in which they enrolled in a program or course that falls within the particular aid category. FTE's are always unduplicated because they are calculated on the basis of credits (30 credits = 1 FTE) and are therefore independent of the students who generated the credits. The FTE count represents how many students the districts would have served if all of the credits were generated by students who were all enrolled full-time (i.e., taking 30 credits) for the given year.

TOTAL STATE ENROLLMENT: 1985-86 through 1994-95

SELECTED STUDENT CHARACTERISTICS

The following tables provide student characteristic information for 1994-95 by state total and for each Technical College District. Data is presented by age categories, sex, and highest grade completed prior to enrollment. Both headcount and percent of total information is given.

The highest grade completed numbers are unduplicated estimates derived from duplicated counts for College Parallel, Associate Degree, Vocational, Vocational-Adult and Community Services enrollment.

The College Parallel counts for the three districts (Madison, Milwaukee and Nicolet) that offer the program are included in the Postsecondary counts for these districts.

ENROLLMENT OF TARGET POPULATIONS

The following tables provide headcount information for students with special needs by state totals for the ten year period 1985-86 through 1994-95 and by district for the 1994-95 academic year. The counts are for students with disabilities, with academic or economic disadvantages, and with limited English proficiency. A student may be counted in more than one column according to his or her special needs.

Prior to 1992-93, students with disabilities had to have received one or more special services from the reporting district which would enable them to succeed in their course of study before they could be reported as disabled. Beginning in 1992-93, students with disabilities identified themselves as such whether or not they needed any special service provided by the reporting district in order to succeed. It is noted that self-reported students may have received assistance from an agency other than a district. This change in reporting definition accounts for the increase in students with disabilities from 8,223 in 1991-92 to 12,082 in 1992-93.

The number of academically disadvantaged students was under-reported for 1992-93 due to a definitional misunderstanding between the State Board and the districts. The count of 61,778 academically disadvantaged students for this year should have been higher, and the apparent increase between 1992-93 and 1993-94 correspondingly lower.

ENROLLMENT BY RACE/ETHNIC STATUS

The following tables present headcount enrollment data by the race/ethnic status of students for the ten year period 1985-86 through 1994-95, and by district for the 1994-95 school year. Race/ethnicity is self-reported by the student according to the following categories derived from the federal Office of Management and Budget's Directive No. 15 of 1977. The categories are:

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America, or who maintains cultural identification through tribal affiliation or community recognition.

Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or Pacific Islands (e.g., China, Japan, Korea, the Philippine Islands, Samoa, India, and Vietnam).

African American, not of Hispanic Origin: A person having origins in any of the black racial groups of Africa.

Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

White, not of Hispanic Origin: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

As a matter of practice, individuals will report themselves according to the group they most closely identify with or choose not to identify themselves with any of the categories.

ENROLLMENT BY COUNTY OF RESIDENCE

The following table presents headcount enrollment data by county. For each county, the sum of the students who reported that county as their county of residence is given. The percentage that these students are of each county's population age 18 and over is also given.

Data is provided for 1994-95. Of the 434,780 students enrolled in 1994-95, 423,854 (97.5%) reported a county of residence, 8,707 (2.0%) reported an out-of-state residence, and 2,219 (0.5%) did not provide a response.

While enrollment is given as a percentage of the population age 18 and over, the enrollment figures are for all students including those under age 18. Of the 434,780 students enrolled in 1994-95, 406,504 (93.5%) reported their age* as 18 and over, 18,432 (4.2%) reported their age as 17 and under, and 9,844 (2.3%) did not report their age.

The figures for the 18 and over populations by county are from the "Official Population Estimates, January 1, 1995," produced by the Demographic Services Center of the Wisconsin Department of Administration.

The 406,504 individuals who reported their age as 18 or over in 1994-95 represent 10.8% of the 1995 estimated population age 18 and over. This means that 1 out of every 9.2 persons age 18 and over in Wisconsin in 1994-95 enrolled in at least one course offered by the WTC Districts.

* "Reported" age is age as of August 1 of the program year; it is derived from date of birth information.

STUDENT TRANSFERS TO WTC DISTRICTS

The following table presents counts of students who transferred into a Technical College District from another postsecondary institution. Transfer students are those who received credit from another institution according to the following criteria:

- The credits were transferred from the last institution attended;
- The credits were transferred in the reported year of enrollment in the WTCS district; and
- The student was accepted into a WTCS degree, diploma or certificate program.

Headcounts are given for the 1991-92 through 1994-95 academic years, 1991-92 being the first year for which statewide data is available.

STUDENT TRANSFERS TO WTC DISTRICTS: 1991-92 through 1994-95

	University of Wisconsin	WTCS*	Out -of- State	Other Wisconsin**	Wisconsin Assoc. of ndependent Colleges & Universities	Total
1991-92	2,527	1,009	855	159	333	4,883
1992-93	2,044	877	861	430	254	4,466
1993-94	2,474	1,173	1,005	470	317	5,439
1994-95	2,678	1,343	1,099	391	216	5,727

* Transfers between technical colleges.

** Includes transfers from cosmetology schools, county teachers colleges/normal schools, private business and trade schools, and other Wisconsin institutions.

The Wisconsin Technical College System Board is in full compliance with state and federal equal opportunity and affirmative action laws and regulations including Title VII of the 1964 Civil Rights Act, Age Discrimination in Employment Act, Title VI of the 1964 Civil Rights Act, Equal Pay Act, Title IX of the 1972 Education Amendments, and Section 504 of the 1973 Rehabilitation Act, Wisconsin Fair Employment Law, Wisconsin Civil Service Law and Executive Orders, the Carl Perkins Vocational and Applied Technology Education Act, Adult Education Act, Job Training Partnership Act, the Office of Civil Rights Guidelines for the Elimination of Discrimination in Vocational Education, the Americans with Disabilities Act (ADA), and/or other applicable state or federal legislation. It is the policy of the WTCSB not to discriminate on the basis of race, color, creed, national origin, religion, sex, age, disability, arrest record, conviction record, political affiliation, marital status, sexual orientation, and membership in the National Guard, state defense force or any other reserve component of the military forces of the United States, or this state. Inquiries regarding equal opportunity may be directed to the Wisconsin Technical College System Board, 310 Price Place, P.O. Box 7874, Madison, Wisconsin 53707; telephone (608) 266-1844 or Telecommunications Device for the Deaf (TDD) (608) 267-2483.
